Hi Kim do you and Louise have some time early this afternoon to meet? Lance has found something and would like to have a follow-up.

Thanks

Stephen

Stephen, as mentioned in our email to you about the Wilcox report, there were six documents that we identified after the initial order from the various states. Would you like us to proceed with securing certified copies of these six documents? There were three non-certified documents that we referenced such as internet documents, but these items cannot be certified. I am only asking about the items that can be certified, if we make a request for a certified copy.

Thank you.

Kim:
As you know there are also internet-sourced docs and state SOS summaries cited in the report that cannot be certified.

Louise, please put together a list of the uncertified documents for Wilcox that COULD be certified if we order them. I want to go back to Stephen to see if he wants us to order the certified copies.

Best regards,

Kim
